

UNIVERSITY OF NOTRE DAME (圣母大学)

Department of Chemistry and Biochemistry

Ph.D. Program

Notre Dame faculty will be in Beijing this winter to meet you! 今冬相见北京

When: January 14-16, 2018

Where: 1713 West Towers, Genesis Building 8 Xinyuan South Road, Beijing 100027

圣母北京国际中心, 启皓中心

Students are strongly encouraged to finish their online application in order to receive an individual invitation to interview. Offers can be made onsite. Please email one of the contacts listed below to reserve your interview timeslot. Walk-in applicants are also welcome if interview slots are still available on the same day.

Contacts

Professor Haifeng Gao (Organic Chemistry): hgao@nd.edu

Professor Vlad Iluc (Inorganic Chemistry): viluc@nd.edu

Professor John Parkhill (Physical and Analytical Chemistry): john.parkhill@nd.edu

Apply online at: gradconnect.nd.edu/apply/

The Ph.D. program in chemistry encompasses all areas of modern chemical research, including organic physical, inorganic and analytic chemistry. The Ph.D. program in biochemistry is designed to train students in the chemical underpinnings of biological processes, and encompasses all areas of modern biochemistry, from cell and molecular biology to computational biophysics. Both programs are characterized by an unsurpassed commitment to the development of graduate students into well-rounded scientists who can take on leadership roles in industry, academic or government.
